簡介

 PADI 開放水域潛水員 課程 

第一單元

 成為潛水員 I 

 裝備 I 

 身為潛水員的技巧 I 

 知識複習 1 

 測驗 1 

進入學習頁面後
依次完成每單元的課程學習

知識複習

檢查您對

開放水域潛水員 (Open Water Diver) 第一單元所學知識的掌握情況

完成知識複習，以在您的開放水域潛水員 (Open Water Diver) 電子記錄中獲得本單元的學分。

您必須正確回答所有題目，或重測知識複習，直到您能夠 100% 正確回答所有題目，以展示您對知識的掌握。

當您回答完所有題目，您會在下面看到您的總分，並且可以複習每道題目。仔細讀每道您答錯題目的解說，確認您已充分了解所有內容。

若您對本單元有任何疑問或需要澄清任何資訊，請諮詢您的 PADI 教練。

[開始知識複習](#)

Open Water Diver - 測驗 1

檢查您對

開放水域潛水員 (Open Water Diver) 第一單元所學知識的掌握情況

完成測驗，以在您的開放水域潛水員 (Open Water Diver) 電子記錄中獲得本單元的學分。

您需要達到 75 分或以上以證明掌握知識內容。當您完成時，您將看到總分。

若您對本單元有任何疑問或需要澄清任何資訊，請與您的 PADI 教練聯絡。

[進行測驗](#)

開放水域潛水員 (Open Water Diver) 期末考試

檢查您對開放水域潛水員 (Open Water Diver) 課程中所學知識的掌握情況。

完成期末測驗以在開放水域潛水員 (Open Water Diver) 電子記錄中獲得學分。

您需要達到 75 分或以上以證明掌握知識內容。當您完成時，您將看到總分。

若您對本單元有任何疑問或需要澄清任何資訊，請與您的 PADI 教練聯絡。

[參加期末考試](#)

完成每個章節的知識復習和測驗後 可以進入到最後的期末考試

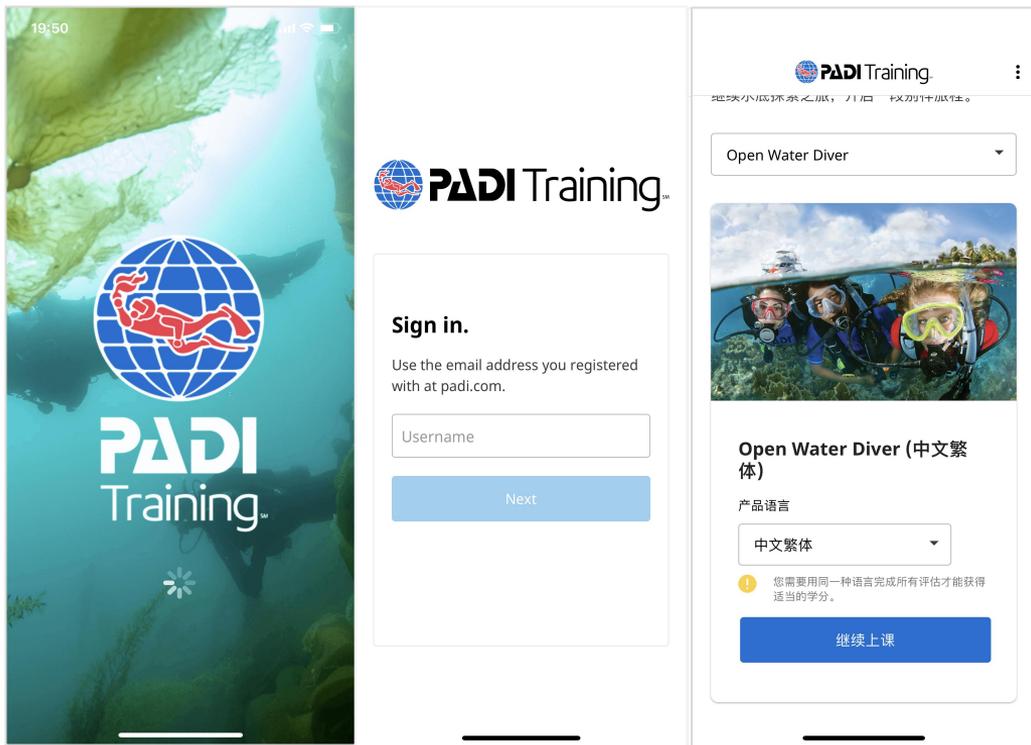

注意：

**無論是知識復習、測驗還有期末考試中
避免長時間離開、關閉、刷新或後退上
壹級頁面，這將造成考試鎖定
如發生此情況，請聯系教練解鎖考試**

Standard Safe Diving Practices Statement of Understanding

Please read carefully before signing.

This is a statement in which you are informed of the established safe diving practices for skin and scuba diving. These practices have been compiled for your review and acknowledgment and are intended to increase your comfort and safety in diving. Your signature on this statement is required as proof that you are aware of these safe diving practices. Read and discuss the statement prior to signing it. If you are a minor, this form must also be signed by a parent or guardian.

Name
Date
 understand that as a diver I should:

- Maintain good mental and physical fitness for diving. Avoid being under the influence of alcohol or dangerous drugs when diving. Keep proficient in diving skills, striving to increase them through continuing education and reviewing them in controlled conditions after a period of diving inactivity, and refer to my course materials to stay current and refresh myself on important information.
- Be familiar with my dive sites. If not, obtain a formal diving orientation from a knowledgeable, local source. If diving conditions are worse than those in which I am experienced, postpone diving or select an alternate site with better conditions. Engage only in diving activities consistent with my training and experience. Do not engage in cave or technical diving unless specifically trained to do so.
- Use complete, well-maintained, reliable equipment with which I am familiar, and inspect it for correct fit and function prior to each dive. Have a buoyancy control device, low-pressure buoyancy control inflation system, submersible pressure gauge and alternate air source and dive planning/navigation device (dive computer, BCD/BCD tablet—whichever you are trained to use) when scuba diving. Do not use my equipment to uncertified divers.
- Listen carefully to dive briefings and directions and respect the advice of those supervising my diving activities. Recognize that additional training is recommended for participation in specialty diving activities, in other geographic areas and after periods of inactivity that exceed six months.
- Adhere to the buddy system throughout every dive. Plan dives—including communications, procedures for reunions in case of separation and emergency procedures—with my buddy.
- Be proficient in dive planning (dive computer or dive table use). Make all dives no decompression dives and allow a margin of safety. Have a means to monitor depth and time underwater. Limit maximum depth to my level of training and experience. Ascend at a rate of not more than 18 meters/60 feet per minute. Be a SAFE diver—Slowly Ascend From Every dive. Make a safety stop at an added precaution, usually at 5 meters/15 feet for three minutes or longer.
- Maintain proper buoyancy. Adjust weighting at the surface for neutral buoyancy with no air in my buoyancy control device. Maintain neutral buoyancy while underwater. Be buoyant for surface swimming and exiting. Use weights clear for easy removal, and establish buoyancy when in distress while diving. Carry at least one surface signaling device such as signal table, whistle, moose.
- Breathe properly for diving. Never breath-hold or skip-breathe when breathing compressed air, and avoid excessive hyperventilation when breath-hold diving. Avoid overexertion while in and underwater and dive within my limitations.
- Use a boat, float or other surface support station, whenever feasible.
- Know and obey local dive laws and regulations, including fish and game and dive flag laws.

I understand the importance and purposes of these established practices. I recognize they are for my own safety and well-being, and that failure to adhere to them can place me in jeopardy when diving.
